Re Goal: Facilitate transfer of water to avoid regional strategies

Questions

(1) What policies are in place or proposed to ensure that areas with shortages are making the best use of the water they do have?
This should be basis of any transfer proposal.

(2) ~~Are~~ Will areas such as the Central Coast (Monterey Co et al) receive equal consideration with more densely populated areas of California?
Availability of water and need should be emphasized along with sheer population numbers.
