Many regional conversations on water
Regional Reports: Background

• Introduced in Update 2005
• Each report provides information on conditions and water balance data for each hydrologic region or area of special interest
• Update 2009 added sections on flood management and water quality and information was reviewed and refined through regional workshops
Regional Reports: What We Heard

• Statewide programs need to understand regional conditions & priorities
• Information also needed on sub-regional conditions
• Recommendations needed to be more specific to each region's unique challenges and opportunities
Regional Reports – What We Heard

Many recommendations to better reflect regional initiatives throughout Water Plan:

- Urban Water Management Plans
- Integrated Regional Water Management Plans
- Agency databases
- Flood Management Plans
- General Plans – Water Element
Regional Reports: What We Did

Developed and Refined Content

• Revisited role of CWP Regional Reports for describing regional conditions and priorities

• Expanded focus on local and regional efforts, priorities and initiatives

• Discussions with other program managers
Regional Reports: Roll-out

Today’s Presentation

• Describe new Regional Report “Story”
• Receive feedback on Regional Report storyboard
  • What to add or change
  • Identify key topics or “sub-chapters” that are important to the region
  • Form partnerships for developing content
Regional Content: Objectives

- Provide accurate and comprehensive description of regional conditions, efforts and priorities regarding water management and planning.
- Focus on the unique conditions, objectives and available solutions in each region.
- Better support planning efforts and programs at local and regional level – Make it useful for local interests.
Regional Approach: Recent Activities
Regional Report “Storyboard”

Current State of Region
Regional Resource Management Objectives
Inter-regional and Statewide Relationships
Water Management Strategies and Initiatives
Short- and Long-term Recommendations
Regional Content:
Current State of Region

- Description of unique characteristics of regions and sub-regions, including:
  - Geography, hydrology, demographics, economics
  - Flood and water mgmt. challenges & opportunities
- Recent/key policies, programs, legislation
- Major efforts and initiatives
Regional Content: Resource Management Objectives

• Overview of local and regional water planning and mgmt. objectives, e.g.:
  • IRWM, UWMP, Irrigation district, Flood district, RCD and General Plan goals
  • State program guidelines and criteria such as Water Boards, IRWM Strategic Plan

• Addressing immediate needs

• Anticipating future conditions and needs
Regional Content: Inter-Regional & Statewide Relationships

• Past and present interactions with other regions (upstream and downstream), e.g.:
  • imported water, transfers, conjunctive use
  • floodplain management activities
  • implications for reliability, water quality, energy use

• Current and future stake in larger inter-regional systems, e.g.:
  • Bay-Delta conditions and programs
  • Colorado River Quantification Settlement Agreement
Regional Content: Water Management Strategies and Initiatives

- Describe the Resource Management Strategies currently used in region
- Describe which strategies are: readily available, most effective, preferred
- Feasibility for expanding current strategies
- Feasibility for new strategies
- Tradeoffs and overall benefits
- Quantification of benefits
Regional Content: Short- and Long-term Implementation Actions

- Recommendations for implementation
  - Short-term and long-term
  - Likely benefits associated with actions
- “No Excuse” actions
- Consequences of inaction
Regional Content: Next Steps

Discuss Regional storyboard (today):

- Identify key topics or “sub-chapters” that are important to the Sacramento River region
- Identify existing sources of data and information
- Think about and discuss key audiences
- Commit to providing content (Your regional story)

Incorporate into expanded outline
