Variation in Precipitation for Sacramento Valley Floor
Historical 1951-2005 and by Climate Sequence
Change in average annual temperature for the Sacramento Region from historical 1951-2005 average for historical period and 12 climate sequences 2006-2100
Summary of Unmet Environmental Objectives
California (not exhaustive)

Summary of Unmet Environmental Objectives
American River Below Nimbus (DF&G)

Summary of Unmet Environmental Objectives
Stanislaus River Below Goodwin

Summary of Unmet Environmental Objectives
ERP Target #1 for Delta
Agricultural Demand
Three Scenarios

Each box represents annual results for 12 climate simulations

- 1998-2005
- 2011-2020
- 2021-2030
- 2031-2040
- 2041-2050

- historical
- Blueprint Growth
- Current Trends
- Expansive Growth

Applied water demand (maf)
Agriculture
Climate Scenario 1

Graph showing the annual demand (maf) against the fraction of years exceeded, with lines indicating different growth scenarios:
- Current Trends
- Blueprint Growth
- Expansive Growth
