### WORK GROUP DISCUSSION QUESTIONS

**The Communications Work Group Discussion Topics:**

Do you recommend any additional language in the Communication Plan, if so what are you recommended be included?

(NOTE: Since the Communication plan applies to more than just Government to Government communications and specifically government to government consultation; one recommendation was to define and clarify the meaning of consultation as it may relate to this the DRAFT Communication Plan and how it differs from collaboration and communication generally. The Communications Work Group does not intend to develop consultation protocols.)

**Exercise:** Can you provide some draft language or recommendations for attachments?

**[Example Language:]**
This document is not intended to define consultation for the state or develop a consultation policy for the State.

This document will not pre-empt federal law. Additional state law may apply as well as state and local agreements or policies relating to consultation and/or communication with Tribes.

**[Example: Inclusion of Executive Order 13175 as an Appendix]**
